62 80.....	1	316 3865	

NOTE 3.058-1: Two Types of Ignition Coil Supports were used on the 62 01 (LHE). They can be identified as follows:

Type 1: The Ignition Wire Support is attached to the Ignition Coil Support. A Metal Clip is used to hold the Wires to the Support.

Type 2: The Ignition Wire Support is separated from the Ignition Coil Support and a Nylon Separator attached to a Bracket is used to hold the Wires.
